

CITY OF SAN DIEGO, CALIFORNIA
COUNCIL POLICY

CURRENT

SUBJECT: ARTIST(S) INVOLVEMENT IN SELECTED CAPITAL
IMPROVEMENT PROJECTS
POLICY NO.: 900-11
EFFECTIVE DATE: March 30, 1992

BACKGROUND:

The City of San Diego Commission for Arts and Culture is the primary advocate for arts and culture for the City. In fulfilling its mission, it recommends policies and programs to strengthen the involvement and input of artists and other professionals in cultural planning and community development, reflects the cultural diversity of the people it serves and fosters local, national and international cultural understanding.

The San Diego Commission for Arts and Culture received funds from the National Endowment for the Arts (Resolution Number R-275373, adopted on March 26, 1990) and the California Arts Council (Resolution Number R-272959, adopted on February 27, 1989) to develop the Public Art Master Plan (PAMP). A city-wide pilot program was established to involve communities and artists in the development and creation of site specific artwork. PAMP was established to better serve the residents of San Diego by providing an opportunity for community identity and a source of pride, to enhance the existing environment of San Diego's neighborhoods, and to provide an opportunity for artistic expression and cultural diversity (see San Diego Municipal Code 26.0701 and Purpose and Intent and 26.0707 Procedures, sections 7C and E).

To further enhance the goals of the Public Art Master Plan and to implement the duties of the Commission for Arts and Culture (see San Diego Municipal Code 26.0703), San Diego Municipal Code has been amended (SDMC 26.701 et seq. by ordinance O-17757 adopted on April 20, 1992). In addition, the Council policy set forth below parallels the standard established by other municipal and state public art ordinances which mandate inclusion of artist(s) in the design process and/or the commissioning of site-specific artwork.

PURPOSE:

The purposes are to establish a policy of the City Council to involve artist(s) in selected City Capital Improvement projects and to provide guidance to City staff and design consultants to implement this policy. This policy has been designed to address a commitment to excellence in the design of San Diego's built environment in the most efficient and cost effective way, with minimal impact on existing procedures, practices, and CIP budgets.

IMPLEMENTATION:

It is the intent of this proposed policy to utilize existing procedures within each sponsoring City department to involve artist(s) in Capital Improvement Projects. Further, this proposed policy will be
